## DETAILED ACTION

### *Response to Amendments*

1. Amendments to claims 19, 26, and 31 have been entered in the above-identified application. **Claims 15-37 are pending.**

### *Claim Rejections - 35 USC § 112*

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claim 26 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 26 has been amended to recite a "coated article comprising a substrate and a first layer and a second layer, wherein the first layer and the second layer each comprise a resinous binder, wherein a colorant is present in the first layer and reflective pigments are present in the second layer, wherein the colorants absorb visible light at a first wavelength band and produce fluorescent light at a second wavelength band when exposed to visible light, the coated article exhibiting a first appearance on face dominated by absorbance of light by the colorants and a second appearance on flop dominated by fluorescence of the colorants, and wherein the concentration of the colorants in the coating composition applied to the substrate as the first layer is about 0.001 wt.% to about 50 wt.%". The claim language must be clarified to state that the first

Art Unit: 1773

layer containing the colorants is the upper layer and the second layer containing the reflective pigment is the lower layer (as discussed in Paragraph 15 of the Specification and pointed out by the Applicants) . The phrase "wherein the concentration of the colorants in the coating composition applied to the substrate as the first layer" is ambiguous given that the layer containing the colorants is the upper layer.

***Response to Arguments***

3. Applicants arguments with regards to the rejection of claims 15-17 and 21-25 under 35 U.S.C. 102(b) as being anticipated by O'Brill (US 4,172,063) and the rejection of claims 15-17, 21-23, and 25-27 under 35 U.S.C. 102(b) as being anticipated by Fasano (US 5,135,568) have been fully considered and are persuasive. Hence, the above-mentioned rejections are withdrawn.

***Declaration Under 37 CFR 1.132***

4. The Declaration under 37 CFR 1.132 filed on May 24, 2007 is sufficient to overcome the rejection of claims 15, 16, 25, 29, 30, and 33-37 based upon 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

***Allowable Subject Matter***

5. Claims 15-25 and 27-37 are allowed.

***Conclusion***

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
